About the company

Current Security (CS) was established in 2004 as a business entity under the name Wakobe Security Company, incorporated in 2013 as Wakobe Security Company Ltd, and in 2021 changed its name to Current Security Group Ltd, with a view to providing quality, professional security services to the public and private sectors. We are a Kenyan-based security provider with a niche in skills training and capacity building around security solutions.

We have a recognised track record of delivering specialised security solutions such as anti-terror training, close protection, risk and disaster management, investigations and related training and education, for the corporate sector, government agencies, foundations and related organisations, high net worth individuals and private individuals. With offices in Nairobi and Bungoma and an extensive network of associates, we bring our clients proven security solutions.

Our driving force is people with the dedication, dynamism and determination to be the best. Our motto, *providing security services with diversity*, has been our strength for growth, and it has helped us secure and maintain security contracts with reputable establishments. Whether your business is large or small, we provide a full range of security services built to meet your expectations.

Our office and company vehicle

Operations desk

Our commitment

We are committed to offering quality security services to our clients at affordable and competitive rates. We do this by:

- carrying out regular supervision of every sentry guard posted at our clients' sites, to make sure all security measures are carried out effectively; and
- running cost-effective, performance-oriented training programmes, seminars and workshops that enhance our personnel's skills.

Vision and mission

OUR VISION

To be the widely preferred strategic security provider of choice, offering the highest level of service and an unsurpassed response to the needs of our clientele.

OUR MISSION

To establish critical and sustainable business partnerships with clients, while promoting a safer, more secure environment that contributes to our client's profitability as a value-added security service.

"Providing security services with diversity."

We achieve our vision and mission through an uncompromising commitment to professionalism and the constant development of business and personnel performance, to the benefit of our clients, our personnel and the general public. We provide a wide spectrum of security services to the satisfaction of our clients, and we deal with them in the spirit of *service with courtesy*.

Core values

01
Respect
We affirm respect for the relevant accreditation, regulatory and statutory bodies.

02
Practical skills
Dedicated to the most up-to-date, practical training and services possible.

03
Integrity
We act consistently with our mission, honestly and transparently.

04
Commitment
We work together effectively to impart skills around security issues.

05
Excellence
We challenge ourselves to the highest levels of learning and performance, for greater impact.

Business objectives

Protecting the public
Ensuring we deliver regulated private security services.

Customer service
Delivering services which meet the needs of our customers.

Delivering value
Operating within our means and delivering value for money.

Developing our people
Making sure staff and clients have the competencies and skills to perform effectively and reach their potential.

Code of conduct

This is the code of conduct we expect from every member of our staff:

- We maintain high ethical standards and uphold our quality management philosophies.
- We maintain integrity and confidentiality with both partners and clients, and keep an open and honest channel of communication.
- We provide a healthy and safe work environment.
- We do not unfairly damage the reputation of competitors, either directly or by implication.
- We adhere to all industry compliance and verification requirements.

Security guarding

We provide security guards on 12-hour shifts across a wide range of assignments. The main objective is surveillance, deterrence and the general protection and care of our customers' property.

Every guard is selected and vetted to Private Security Regulatory Authority criteria, completes one month of training and works alongside experienced guards for practical induction before taking a post alone.

Supervisors visit each post three times per shift, and duty managers make unannounced spot checks, so replacements and emergency postings leave no gaps.

Our guards at the company office

K9 dog service

German Shepherd and Boerboel dogs with trained handlers, deployed alongside static guards for added deterrence.

Our dogs are trained in obedience, guarding, patrol, apprehension and live tracking. Handlers are trained in dog patrol, dog health care, kennel management, dog first aid and customer care.

Vaccination records and training certificates for our dogs are in the annex.

Technology, investigation and advisory services

01
CCTV monitoring

We install CCTV cameras and train staff at strategic points in assignments such as banks, industries, stores and residential houses. The monitor is positioned strategically and manned 24 hours a day while recording all activity.

02
Alarm systems

Automatic alarms activate as soon as they detect intrusion or interference. Remote-controlled and push-button alarms are activated manually by clients' guards to call for help when under attack or sensing danger.

03
Access control

Multiple product lines of full access control systems, from keyless entry for a single door to a multi-site operation, including fingerprint detectors, airlock doors and remote-controlled door locks.

04
Private investigations

Highly trained investigators for robberies, forgeries, infiltration and any kind of mismanagement or crime-related issue. Clients are furnished with concrete reports and exhibits for ease of prosecution.

05
Security consultancy

Security advice, site surveys, and recruitment and training of guards and officers for companies and individuals. Our experts evaluate your programme using surveys, vulnerability assessments, crime statistics and accepted standards to design a customised one.

06
Crowd control

Non-violent and violent crowd control at seminars, public gatherings, workshops, functions and buildings.

A pro-active approach

HOW WE THINK

We constantly monitor criminal modus operandi and current situational information, so we can tailor a solution to any security requirement. We believe it is far better to be pro-active than simply reactive, and we have developed security solutions and training that cater for all budgets and environments.

SURVEY AND QUOTATION

Our management carries out a survey of your premises or institution and submits security recommendations from time to time, because security challenges are dynamic.

WHO WE SERVE

Our services are geared to meet all your security needs at home, in the office, at the factory, for cash escort and for private investigation. We tailor each service to your operation and your individual needs. Your safety and security is our concern.

Corporate wellbeing and safety training

Current Security provides capacity-building skills that strengthen security in the public and private sectors. The aim of corporate security training is to introduce participants to the realities of violence and crime. We give them the mental tools and understanding to proactively identify, avoid and manage these situations should they occur.

After completing a course, participants have a heightened awareness of personal security, which reduces their exposure to violent encounters and crime in every part of their lives. The knowledge and skills they learn help them lead healthier, safer lives, which means higher productivity in the workplace. We have wide experience in the design, development and implementation of successful training programmes in the public and private sectors.

How the programme is built

THE FOUNDATION

Everything starts with the Security Awareness session. It is the best place to begin, because it creates the foundation for all further training.

Personal security

Courses that build personal safety awareness and self-protection.

Public security

Courses on safety in public places, travel and events.

Vehicle security

Courses on driving safely and avoiding vehicle-related crime.

Attending as many of the courses as possible helps each person predict, avoid or react appropriately in as many situations as possible.

Courses available

- Security awareness and crime avoidance
- Self-defence
- Rape prevention and women’s self-defence
- Travel security
- Armed robbery management
- Hostage and kidnap survival
- ATM crime avoidance
- Bomb and IED (improvised explosive devices) awareness
- Defensive and skidpan driving

PROSAK Security Conference

Our people

Current Security was formed by accomplished, experienced professional investigators, security and intelligence operatives, healthcare professionals and business executives who have worked in the public and private sectors, with wide experience of national and international business, law, finance and government operations.

Our executive and senior staff include Kenyan-based investigators and security professionals with a network of local contacts and long-term local relationships. That lets us understand the environment and context of each case, protect the people involved and resolve the situation. Our principals have lived and worked in a variety of locations, so we are a multi-disciplined, multi-cultural group able to respond effectively and efficiently to even the most unusual situations.

Our reputation is built on unconventional solutions to complex cases, using confidential sources and key contacts, domestic and international resources, electronic databases and the expertise of seasoned professionals.

How we recruit and train guards

In line with our motto of *service with courtesy*, we select and vet guards carefully, according to the Private Security Regulatory Authority criteria.

Training experience

One month of training in assignment instructions, access control, industrial accidents, firefighting drills, self-defence, safety and hygiene, first aid, crime detection and prevention, casualty evacuation and customer care, then posting beside experienced guards for practical induction.

Education

Every guard must be literate and able to interpret written instructions at any assignment.

Health

Guards undergo a physical and medical examination to confirm they are fit for the duties assigned to them.

Standards of conduct

Regular refresher courses and seminars keep discipline high, in line with company standing orders.

Our team

Guards at the office

Supervisor

How we take over a site

We can ensure a smooth transition from the incumbent service provider within 12 hours of the contract starting. At installation we make sure of the following.

1
Site survey
Carried out at the earliest time possible, with advice given to you.

2
Instructions
Concise, clear assignment instructions agreed with you.

3
Guards introduced
Personnel introduced before posting, and you receive the details of every guard on your property.

4
Inventory
All property in the area of assignment is taken stock of.

5
Oversight
A resident contract manager oversees the transition.

Smooth takeover within 12 hours of the contract starting.

Communication network

We keep a constant and open network on radio and mobile phones, supplementing landline links with our control room and managers. All of our services have a radio call communication network so operations stay efficient and effective.

Supervision

Guards are supervised on their shifts, day and night, at their respective assignments, three times by supervisors. Assignment in-charges and supervisors carry either radios (walkie-talkies) or mobile phones for easy communication.

Duty managers also make impromptu spot checks to make sure the quality of service is never compromised, posting guards in emergencies and replacements. They travel by company vehicle, so there are no gaps and customers' welfare and property are secured at all times.

Service standards

COMMITMENT	STANDARD
Takeover	Smooth transition from your current provider within 12 hours of the contract starting.
Supervision	Three supervisor checks per guard per shift, day and night.
Spot checks	Unannounced duty-manager checks by company vehicle, so posts are never left uncovered.
Communication	Radios or mobile phones with supervisors and site in-charges.
Client updates	Frequent updates on security status and threat levels, and free security advice for existing clients.

How we are organised

The firm is managed by an executive board of directors made up of competent professionals in investigation, security surveillance, marketing, finance and administration. It is organised into three departments.

Operations

Effective implementation and enforcement of all contractual security obligations of the company's guard section, dog section, private investigation section, alarm systems control section and others.

Marketing

Advertising and marketing of our services through prospecting new customers, customer care and public relations, keeping constant liaison with clients to improve service and offer fair terms and conditions.

Finance and Administration

All matters of finance, accounts, human resources and supplies. It handles recruitment of personnel and sets the terms and conditions of service for all employees.

Relationships and membership

Current Security Group Ltd is a member of the Protective Security Association of Kenya (PROSAK). We have built close working relationships with the police, local administration, local enforcement officers and other private security providers.

Because we support the basic security needs of the community, we have always kept good relations with the communities in our areas of operation.
